Degrees	Programs/Tracks	CACREP?	Semester/Quarter Hours Required
(sample) MA-Counseling	Mental Health Counseling / School Counseling	Y/N	60 sem. hours / 48 sem. hours
A			
B			
C			
D			

Supporting Documentation

Please submit the following information for each program listed in the table:

1. Curriculum sheets or course of study plans pertaining to each program/track.
2. A completed Verification of Coursework Form for each program/track indicating which classes students will take to meet NBCC's coursework requirements.
3. Departmental course descriptions from the current graduate catalog.
4. Current syllabi for all courses submitted on the Verification of Coursework Form.

Eligibility Requirements

To be eligible to participate in this application option, you must demonstrate that each student from your program(s) will meet NBCC's educational requirements prior to graduation. Specifically, each student must meet the following standards in order to apply using this application:

**Please initial under each statement to indicate your understanding of and agreement with each policy.*

- Participating universities must designate a campus coordinator that agrees to communicate the purpose of the NCC application to each eligible student and will ensure that eligible students are informed that they are applying for a national board certification and not simply applying to take an examination.
- Degree-seeking counseling students are eligible to apply for the NCC. They must be currently enrolled in a degree-granting counseling track in a master's, specialist, or doctoral program. **Students enrolled in certificate programs or taking additional courses for licensure are not eligible to apply.**
- Prior to graduating, applicants must complete a minimum of 48 semester hours/72 quarter hours of graduate-level coursework in counseling and must fulfill all [coursework requirements](#) for the NCC. If a student does not complete the appropriate degree and coursework, they will not be eligible for certification.
- Before submitting an NCC application, students must be well advanced in their program of study. At a minimum, they must have completed coursework in six of the eight required subject areas and be enrolled in the final two during the semester of the exam. It is preferred that students be submitted on the roster once they have completed those courses and are in the practicum/internship stage in their degree.
- Departmental decisions regarding waivers of graduate-level coursework will not be honored by NBCC. Students are required to complete all NBCC required coursework areas. Transfer courses must appear as program credits on the official transcript.
- Deviations from the curricula included in this application are not guaranteed acceptance by NBCC.

NCC Application- Examination Requirement

The NCC Application completed by students at participating universities includes registration for either the National Counselor Examination (NCE) or the National Clinical Mental Health Counseling Examination (NCMHCE). Information regarding the examination is included in the NCC application completed by the student. All exams are administered at Pearson VUE test centers. Students are contacted by Pearson VUE and make arrangements to take the exam at a Pearson VUE Select Test Center. Students are responsible for checking with their state licensure board regarding specific examination requirements if they plan on using the certification exam for the purpose of state licensure.

College/University: _____

Degree and Track: _____

To be eligible for the NCC application, students must take a graduate course in each of the following areas. Each content area must be met with no fewer than two semester hours/three quarter hours of graduate credit. In the space provided beside each content area, please list the courses your students are required to take that will fulfill each coursework area. Please keep a copy of these pages for your records.

Content Area	Course Requirement
<p>1. Human Growth and Development Theories in Counseling <i>Studies in this area provide an understanding of the nature and needs of individuals at all developmental levels, relevant to counseling practice.
